

# EcoSpex Verified Product Assessment Process

1

## Submitting a Product

Expresses interest in having a Verified Assessment for your products. An EcoSpex representative will connect to discuss our process. **A proposal is developed.**

The **Proposal** serves as an agreement scope of work and finalize what type of products to be assessment with timelines and fees.

## Product Verification Assessment

We work with manufacturers to receive all documentation, and then undergo a rigorous and transparent analysis process – EcoSpex Quality Assurance Process ensures accuracy, validity, relevance, and completeness.

The verification team ensures all data and supporting documents are standardized in a format for project teams. This is signed off by our 3<sup>rd</sup> party assessment team.

## Verification Complete

Upon successful completion of these steps, EcoSpex will email notification to you of successful verification. Your product receives a Verified approval logo.

For each verified product we will renew all documentation on an annual basis to ensure continued compliance.
